Introduction

The Social Planning Council of Cambridge and North Dumfries is pleased to present this Directory of Community Services and Agencies for Health-Related Services. This publication is a comprehensive listing of all health services offered within Cambridge and the surrounding areas, including counseling services, addictions services, pregnancy support, and mental health services. It is hoped that you will find this directory useful for yourself, a loved one, or a client.

The criterion for being included in this directory is that all organizations must be non-profit, with the exception of organizations that provide a unique for-profit service to the community. The listed organizations must provide a direct service to the members of the Cambridge and North Dumfries community. Finally, the organizations listed must have at least one area of the organization that provides a health-related service to individuals and families within Cambridge and North Dumfries.

It is the hope of the Social Planning Council of Cambridge and North Dumfries that you find this directory to be useful and informative. If you know of any organizations that meet the criteria that are not listed in this directory, feel free to give us a call at 519-623-1713 Ext. 225

Sincerely,

The Social Planning Council of Cambridge and North Dumfries

Bereaved Families of Ontario - Midwestern Region is a self help/mutual aid organization with the philosophy that those who have travelled the road can help those who are new to it. Bereaved Families of Ontario - Midwestern Region provides support to families who have lost a loved one through group support and one to one peer support. All of our groups are offered to the community free of charge and our support groups are run by trained facilitators who are bereaved themselves. BFO has two types of groups, a closed support group and an open support group. A closed support group is one in which all participants commit to attending all the meetings and that closes its registration once the first night group has started. An open support group is one that allows participants to attend as available and does not require commitment for the full duration of the group.
